injuries to the passengers in the event of any mishap and also to remove sharp edges etc. which might injure passengers in normal use.

(b) In order to attract maximum number of ideas, each Railway and Production Unit was asked to modify one coach, making it as injury free and crashworthy as possible and a competition was held in Delhi. Eleven such coaches were received and all of them had incorporated several innovative ideas.

(c) The suggestions made by various workshops and production units are now under close scrutiny. Features which are found appropriate for adoption on a global basis, will be advised to the Zonal Railways and the Production Units for incorporation during POH/new manufacture. These improvements will be progressively implemented starting from the current year.
